VII EXISTING TRANSPORTATION NETWORK :

Uchana town is situated on Rohtak- Narwana -Patiala National Highway number-71. It is well connected with the Punjab and other important towns of Haryana viz.Rohtak, Jind, Hansi, Kaithal, Karnal, Assandh, Safidon and Chandigarh. Delhi-Ferozpur railway line is passing through the town.

VIII NEED FOR DECLARATION OF CONTROLLED AREAS :

The town has experienced considerable changes in its physical and functional structures only in the recent past, as a result of which lot of haphazard and unplanned growth has taken place in the town. In order to regulate the growth of the town a sizeable area around Uchana town was declared as controlled area under the Punjab Scheduled Roads and Controlled Areas, Restriction of Unregulated Development Act, 1963 (Punjab Act 41 of 1963) vide Haryana Government. Gazette notification No (CCP NCR)/JND(UCN)/CA(A)/2006/3238, dated the, 27th October, 2006, published on 27th October, 2006. Municipal committee boundary has been notified vide Haryana Government Gazette Notification No. 93/17/2002-30, dated the, 25th February, 2004. So the need of planned development was felt. The Draft Development Plan Uchana has been prepared to accommodate the population 66,000 persons by 2025 A.D.

PROPOSALS :

(a) The major physical barriers in the development of the town is railway line i.e. Delhi- Jakkhal railway line which is situated in the west of the town. The trends of physical development are along the Jind-Nawana road in the east side of the city Presently 5 villages are falling in the controlled area. The settlement having completely different life-style for centuries is now getting merged into urban environment. The settlement should get the modern services and amenities and should also be catered from there traditional cultural style Development of villages should be integral part of development scheme of the area. Around these settlement educational, health and recreational facility and work area should be developed for the benefit of the rural population of Uchana. Assuming the sector density 100 person per acre, it can be concluded that population growth may increase upto 70%. If the same rate of population growth continues, the urban population by the year 2025 AD would be 66,000, requirements of land-infrastructure, transportation etc. is therefore planned for the population of the 66,000. The projected population is as under:-

The projected population is as under:-

Year	Population	Percentage of Growth
2011	23,989	70.00
2021	40,781	70.00
2025	66,000	61.84

As stated above the development plan has been prepared for a population of 66,000 by 2025 AD, with the presumption that besides natural growth, industrial growth will further increase the rate of population growth to the projected percentage of present population. The Urbanisable area covers 1,496 acres of land, out of which 380 acres area falls within municipal limit and about 1,116 acres is within the controlled area. An area of 660 acres has been proposed for residential use. The proposed gross density of town will be 44 persons per acre. However the residential sector density of town will be 100 persons per acre. Keeping in view according to all proposed land uses have been earmarked the wind direction which is from north- west to south-east. The extent of major proposed land uses is given as under:-
