

order on 21st March, 1997 directing that the Government of Haryana would form a Monitor Cell and such cell will take action against unauthorized construction and unauthorized encroachment and will monitor each compliant of unauthorized construction and unauthorized encroachment and report the same to a Bench to be constituted by the Chief Justice of Punjab and Haryana High Court which will take all appropriate action in this regard. The grievances made by the present applicants are that in view of the aforesaid order even persons having authorized constructions apprehending the demolition when approached that Court, the Court is not entertaining such petitions for adjudicating whether the alleged construction made by them is authorized or unauthorized. We make it clear that only unauthorized constructions and unauthorized encroachments are covered by our order dated 21st March, 1997 and what the Court intended, all unauthorized construction in the area and all unauthorized encroachment in the area should be removed. We, therefore, make it clear that our earlier order does not debar a person having a construction with due permission in moving the Court for appropriate direction and on such case the Court will adjudicate whether the alleged construction was authorized or unauthorized and thereafter appropriate action can be taken. Needless to mention that all such applications, if filed, would be considered by the very Bench which has been constituted by the Chief Justice of Punjab and Haryana High Court pursuant to our earlier order dated 21st March, 1997.

I.As. are disposed of.
