

Memo No.

Dated :

Office Order

It has been observed that while preparing the sectoral plan the information regarding pending licence cases are not considered due to which some internal roads/town level facilities are marked on the applied land which later on creates complications.

Similarly while sending the proposal to acquire the sector road and other infrastructural facilities the DTPs in the field sometimes do not consider already approved sectoral plan leading to legal complications. Therefore all the STPs and DTPs at HQ and DTPs in the field are directed to consider these above issues of pending licence applications and approved sectoral plan while sending the proposal to HQ and while examining the cases at Headquarter.
